DETAILED ACTION

Allowable Subject Matter

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance: The invention as claimed is not disclosed nor rendered obvious in view of the prior art of record. As to independent claims 1 and 6, the prior art of record fails to teach or suggest, alone or in combination, the recited harmonic mixer in which the generator, generates two first and two second control signals for controlling the first and second mixers, and control signals having a frequency different from the frequency of a mixer input signal. In prior arts, it is taught and disclosed where reference signals and/or mixer signals are used for controlling a first and second mixer, and having a frequency that is different from the frequency of a mixer input signal. There was no prior art found that teaches or discloses the use of control signals to perform these functions. Therefore, no prior art was found that discloses or teaches the limitations of claims 1 and 6.
3. Claims 2-5 and 7-12 are dependent upon claims 1 and 6, respectively, therefore, claims 2-5 and 7-12 are allowed.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
